

Well-Child Visits in the First 15 Months of Life (W15)

The measure includes children who turned 15 months old during the measurement year and were continuously enrolled in Louisiana Medicaid between 31 days and 15 months of age. The rate (percentage) shows how many of these children had from 0 to 6+ well-child visits with a primary care provider during their first 15 months of life.

Notes:

- Rates shown are for Medicaid-only recipients.
- Rates shown for 2009 through 2011 exclude Medicare dual eligibles and third-party liability.
- Claims for 2009 through 2011 have a 6-month claim lag.
- Definition of primary care providers includes clinics or group practices.
