How Can CHS-LA Help You?

Community Health Solutions of Louisiana (CHS-LA) is part of BAYOU HEALTH, the Louisiana Medicaid Health Plan program. CHS-LA is made up of a team of people who will get to know you and your family and help you find a medical home. In this medical home, you will have a Primary Care Provider (PCP) to treat you when you are ill and provide routine check-ups.

A PCP is a doctor or clinic who manages all of your primary health care needs. Having a doctor who knows you, your family, and your medical history allows them to make the best choices about your health care.

CHS-LA will help you get settled with a PCP. Our program has a wide range of community based providers to choose from including:

- ◆ Family Doctors
- ◆ Internal Medicine Physicians
- ◆ Pediatricians (for children and adolescents)
- ◆ OB/GYN (for women's health)
- ◆ General Practitioners
- ◆ Federally Qualified Health Clinics
- ◆ Rural Health Clinics and Nurse Practitioners

If you currently have a medical care provider you are comfortable with, ask if they are a CHS-LA provider. If they are in the CHS-LA plan, tell us and we will try to keep you with them for your care.
