Statement of Operations

- Premium and service revenues increased 9.5% for the three months ended September 30, 2010 over 2009 as a result of membership growth and net premium rate increases. This increase was moderated by the removal of pharmacy services in two states in 2010. These pharmacy carve outs had the effect of reducing 2010 third quarter revenue by approximately \$48 million.
- The consolidated HBR for the three months ended September 30, 2010 of 84.2% was an increase of 0.5% over the comparable period in 2009. A reconciliation of the change in HBR from the prior year is presented below:

Third Quarter 2009	83.7 %
--------------------	--------

Florida health plan performance	0.9
Net changes in other markets	<u>(0.4)</u>
Third Quarter 2010	<u>84.2 %</u>

- Consolidated G&A expense as a percent of premium and service revenues was 12.2% in the third quarter of 2010, a decrease from 13.2% in the third quarter of 2009. The decrease in G&A ratio is primarily a result of leveraging our expenses over higher revenues and decreased variable compensation expense during the quarter ended September 30, 2010.
- Earnings per diluted share from continuing operations were \$0.44, compared to \$0.51 in the third quarter of 2009, including a \$0.07 charge per diluted share related to an impairment of an investment in a software company and realized security gains of \$0.03 per diluted share recognized during the third quarter of 2010. Earnings per diluted share also reflect an increase in diluted shares outstanding resulting from the first quarter 2010 stock offering.

Balance Sheet and Cash Flow

At September 30, 2010, we had cash and investments of \$928.1 million, including \$895.4 million held by our regulated entities and \$32.7 million held by our unregulated entities. Medical claims liabilities totaled \$457.1 million, representing 47.1 days in claims payable, a decrease of 1.1 days from June 30, 2010. Total debt was \$264.2 million and debt to capitalization was 24.7%.

Cash flow from operations for the quarter ended September 30, 2010 was \$72.6 million. Cash flow from operations for the nine months ended September 30, 2010 was \$(25.7) million and was impacted by 1) \$38.7 million decrease in unearned revenue due to advance payments received in December 2009 for January 2010 premium payments and 2) \$68.1 million increase in premium and related receivables primarily for September premium payments deferred by one state until October 2010.

A reconciliation of the change in days in claims payable from the immediately preceding quarter-end is presented below:

Days in claims payable, June 30, 2010	48.2
Timing of claims payments	(0.9)
Impact of decrease in membership	(0.3)
Pharmacy payment timing	<u>0.1</u>
Days in claims payable, September 30, 2010	<u>47.1</u>

Outlook

The table below depicts our guidance from continuing operations for 2010:

	Full Year 2010	
	Low	High
Premium and Service revenues (in millions)	\$ 4,250	\$ 4,350

Earnings per diluted share (EPS)	\$ 1.76	\$ 1.80
HBR %	83.5%	84.5%
G&A %	12.4%	12.9%
Diluted Shares Outstanding (in thousands)	50,500	

Based upon known rate adjustments and discussions with our states that finalize rates in the second half of the year, we estimate our 2010 composite premium rate increase to be between 1.5% and 2.5%.

Centene's claims reserving process utilizes a consistent actuarial methodology to estimate Centene's ultimate liability. Any reduction in the "Incurred related to: Prior period" amount may be offset as Centene actuarially determines "Incurred related to: Current period." As such, only in the absence of a consistent reserving methodology would favorable development of prior period claims liability estimates reduce medical costs. Centene believes it has consistently applied its claims reserving methodology in each of the periods presented.

The amount of the "Incurred related to: Prior period" above includes the effects of reserving under moderately adverse conditions, new markets where we use a conservative approach in setting reserves during the initial periods of operations, increased receipts from other third party payors related to coordination of benefits and lower medical utilization and cost trends for dates of service prior to September 30, 2009.
