Department of Health and Hospitals Medicaid
Louisiana Medicaid Coordinated Care Program

Re: Credit Reference for Louisiana Healthcare Connections (LHC)

To Whom It May Concern:

Although we are unable to predict or offer an opinion as to LHC's (a Centene Corporation majority owned subsidiary) future creditworthiness as it relates to the Louisiana Medicaid Coordinated Care Program (and its request for proposal), we can offer you historical facts regarding our experiences related to other Centene subsidiaries (or "Centene").

We have been doing business with Centene since 1998, wherein Cenveo provides printing services for Centene's Medicaid health plans. While the level of services can fluctuate significantly on a monthly basis, on average, we are invoicing Centene approximately \$500,000 per month. It has been our experience, that Centene is a very reliable customer and payer. There have been no instances of failure to pay and our records indicate that Centene is consistently a timely payer.

Should you require any additional information, you may contact me at 314-543-4223 or mike.hecht@cenveo.com.

Sincerely,

Mike Hecht
