

BTW: STD? Totally NOT your BFF!

THE 411

A common **STD** (Sexually Transmitted Disease) is chlamydia. You get chlamydia by having sex (anally, vaginally or orally) with someone who has the infection. Chlamydia can infect men and women but is easily cured if caught early. If left untreated, though, chlamydia can cause serious damage to a woman's reproductive organs.

Are you a sexually active female between the age of 16 and 24? If so, **call your doctor (Primary Care Provider) and schedule your chlamydia screening today!** Do you need help finding a doctor? Call Member Services at **1-866-595-8133** and we will be happy to assist you.

LATER CHLAMYDIA!

Healthy is a way of life.™
