**Home and Community-Based Services Waivers
Adult Day Health Care
(LAC 50:XXI.Chapter 29)**

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office of Aging and Adult Services propose to amend LAC 50:XXI.Chapter 29 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office of Aging and Adult Services (OAAS) amended the provisions governing the Adult Day Health Care (ADHC) Waiver to revise the provisions governing: 1) the program description; 2) the allocation of waiver opportunities; 3) the provision of services and discharge criteria; 4) the reimbursement methodology to implement a quarter hour pay rate and a provider specific transportation component, and to reduce the direct care floor (*Louisiana Register*, Volume 37, Number 9).

The department now proposes to amend the provisions governing the ADHC Waiver in order to clarify the cost reporting requirements for ADHC facility reimbursements.

Title 50

PUBLIC HEALTH-MEDICAL ASSISTANCE
Part XXI. Home and Community-Based Services Waivers
Subpart 3. Adult Day Health Care

Chapter 29. Reimbursement

§2903. Cost Reporting

A. Cost Centers Components

1. Direct Care Costs. This component reimburses for in-house and contractual direct care staffing, social services and activities (excluding the activities director) and fringe benefits and direct care supplies.

2. Care Related Costs. This component reimburses for in-house and contractual salaries and fringe benefits for supervisory and dietary staff, raw food costs and care related supplies.

3. Administrative and Operating Costs. This component reimburses for in-house or contractual salaries and related benefits for administrative, housekeeping, laundry and maintenance staff. Also included are:

- a. utilities;
- b. accounting;
- c. dietary supplies;
- d. housekeeping and maintenance supplies; and
- e. all other administrative and operating type

expenditures.

4. Property. This component reimburses for

depreciation, interest on capital assets, lease expenses, property taxes and other expenses related to capital assets, excluding property costs related to patient transportation.

5. Transportation. This component reimburses for in-house and contractual driver salaries and related benefits, non-emergency medical transportation, vehicle maintenance and supply expense, motor vehicle depreciation, interest expense related to vehicles, vehicle insurance, and auto leases.

B. Providers of ADHC services are required to file acceptable annual cost reports of all reasonable and allowable costs. An acceptable cost report is one that is prepared in accordance with the requirements of this Section and for which the provider has supporting documentation necessary for completion of a desk review or audit. The annual cost reports are the basis for determining reimbursement rates. A copy of all reports and statistical data must be retained by the center for no less than five years following the date cost reports are submitted to the Bureau. A chart of accounts and an accounting system on the accrual basis or converted to the accrual basis at year end are required in the cost report preparation process. The Bureau or its designee will perform desk reviews of the cost reports. In addition to the desk review, a representative number of the facilities shall be subject to a full-scope, annual on-site audit. All ADHC cost reports shall be filed with a fiscal year from July 1 through June 30.

1. When a provider ceases to participate in the ADHC Waiver program, the provider must file a cost report covering a period under the program up to the effective date of cessation of participation in the program. Depending on the circumstances involved in the preparation of the provider's final cost report, the provider may file the cost report for a period of not less than one month or not more than 13 months.

C. ...

D. Annual Reporting. Cost reports are to be filed on or before the last day of September following the close of the cost reporting period. Should the due date fall on a Saturday, Sunday, or an official state or federal holiday, the due date shall be the following business day. The cost report forms and schedules must be filed with one copy of the following documents:

1. a cost report grouping schedule. This schedule should include all trial balance accounts grouped by cost report line item. All subtotals should agree to a specific line item on the cost report. This grouping schedule should be done for the balance sheet, income statement and expenses;

2. a depreciation schedule. The depreciation schedule which reconciles to the depreciation expense reported on the cost report must be submitted. If the center files a home office cost report, copies of the home office depreciation schedules must also be submitted with the home office cost

report. All hospital based facilities must submit a copy of a depreciation schedule that clearly shows and totals assets that are hospital only, ADHC only and shared assets;

3. - 5. ...

6. For management services provided by a related party or home office, a description of the basis used to allocate the costs to providers in the group and to non-provider activities and copies of the cost allocation worksheet, if applicable. Costs of related management/home offices must be reported on a separate cost report that includes an allocation schedule; and

D.7. - F. ...

G. Accounting Basis. The cost report must be prepared on the accrual basis of accounting. If a center is on a cash basis, it will be necessary to convert from a cash basis to an accrual basis for cost reporting purposes. Particular attention must be given to an accurate accrual of all costs at the year-end for appropriate recordation of costs in the applicable cost reporting period. Care must be given to the proper allocation of costs for contracts to the period covered by such contracts. Amounts earned although not actually received and amounts owed to creditors but not paid must be included in the appropriate cost reporting period.

H. ...

I. Attendance Records

1. Attendance data reported on the cost report must be supportable by daily attendance records. Such information must be adequate and available for auditing.

a. - b. Repealed

2. Daily attendance records should include the time of each client's arrival and departure from the facility. The attendance records should document the presence or absence of each client on each day the facility is open. The facility's attendance records should document all admissions and discharges on the attendance records. Attendance records should be kept for all clients that attend the adult day facility. This includes Medicaid, Veteran's Administration, insurance, private, waiver and other clients. The attendance of all clients should be documented regardless of whether a payment is received on behalf of the client. Supporting documentation such as admission documents, discharge summaries, nurse's progress notes, sign-in/out logs, etc. should be maintained to support services provided to each client.

3. - 4. Repealed.

J. Employee Record

1. The provider shall retain written verification of hours worked by individual employees.

a. Records may be sign-in sheets or time cards, but shall indicate the date and hours worked.

b. Records shall include all employees even on

a contractual or consultant basis.

c. - d. Repealed.

2. Verification of employee orientation and in-service training.

3. Verification of the employee's communicable disease screening.

K. Billing Records

1. The provider shall maintain billing records in accordance with recognized fiscal and accounting procedures. Individual records shall be maintained for each client. These records shall meet the following criteria.

a. Records shall clearly detail each charge and each payment made on behalf of the client.

b. Records shall be current and shall clearly reveal to whom charges were made and for whom payments were received.

c. Records shall itemize each billing entry.

d. Records shall show the amount of each payment received and the date received.

2. The provider shall maintain supporting fiscal documents and other records necessary to ensure that claims are made in accordance with federal and state requirements.

L. Non-acceptable Descriptions. "Miscellaneous", "other" and "various", without further detailed explanation, are not acceptable descriptions for cost reporting purposes. If any of

these are used as descriptions in the cost report, a request for information will not be made and the related line item expense will be automatically disallowed. The provider will not be allowed to submit the proper detail of the expense at a later date, and an appeal of the disallowance of the costs may not be made.

1. - 2. Repealed.

M. Exceptions. Limited exceptions to the cost report filing requirements will be considered on an individual provider basis upon written request from the provider to the Bureau of Health Services Financing, Rate and Audit Review Section. If an exception is allowed, the provider must attach a statement describing fully the nature of the exception for which prior written permission was requested and granted. Exceptions which may be allowed with written approval are as follows.

1. If the center has been purchased or established during the reporting period, a partial year cost report may be filed in lieu of the required 12-month report.

2. If the center experiences unavoidable difficulties in preparing the cost report by the prescribed due date, an extension may be requested prior to the due date. Requests for exception must contain a full statement of the cause of the difficulties that rendered timely preparation of the cost report impossible.

§2915. Provider Reimbursement

A. Cost Determination Definitions

Adjustment Factor—Repealed.

Base Rate Components—Repealed.

a. - e. Repealed.

Index Factor—computed by dividing the value of the index for December of the year preceding the rate year by the value of the index one year earlier (December of the second preceding year).

Rate Component—the rate is the summation of the following:

- a. direct care;
- b. care related costs;
- c. administrative and operating costs;
- d. property costs; and

e. transportation costs.

B. Rate Determination

1. The base rate is calculated based on the most recent audited or desk reviewed cost for all ADHC providers filing acceptable full year cost reports. The rates are based on cost components appropriate for an economic and efficient ADHC providing quality service. The client per quarter hour rates represent the best judgment of the state to provide reasonable and adequate reimbursement required to cover the costs of economic and efficient ADHC.

2. For rate periods between rebasing, the rates will be trended forward using the index factor contingent upon appropriation by the legislature.

3. The median costs for each component are multiplied in accordance with §2915.B.4 then by the appropriate index factors for each successive year to determine base rate components. For subsequent years, the components thus computed become the base rate components to be multiplied by the appropriate index factors, unless they are adjusted as provided in §2915.B.6 below. Application of an inflationary adjustment to reimbursement rates in non-rebasing years shall apply only when the state legislature allocates funds for this purpose. The inflationary adjustment shall be made prorating allocated funds based on the weight of the rate components.

4. - 5. ...

6. Formulae. Each median cost component shall be calculated as follows.

a. Direct Care Cost Component. Direct care allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by dividing the value of the Consumer Price Index-Medical Services (South Region) index for December of the year preceding the rate year by the value of the index for the December of the year preceding the cost report year. The direct care rate component shall be set at 115 percent of the inflated median.

b. Care Related Cost Component. Care related allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost of the center at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by the value of the Consumer Price Index-All Items (South Region) index for December of the year preceding the rate year by the value of the index for the

December of the year preceding the cost report year. The care related rate component shall be set at 105 percent of the inflated median.

c. Administrative and Operating Cost Component. Administrative and operating allowable quarter hour cost from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost of the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. The median cost shall be trended forward by dividing the value of the CPI-All Items (South Region) index for December of the year preceding the base rate year by the value of the index for the December of the year preceding the cost report year. The administrative and operating rate component shall be set at 105 percent of the inflated median.

d. Property Cost Component. The property allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. This will be the rate component. Inflation will not be added to property costs.

e. Transportation Cost Component. The

transportation allowable quarter hour costs from all acceptable full year cost reports, except those for which an audit disclaimer has been issued, will be calculated on a provider by provider basis. Should a provider not have filed an acceptable full year cost report, the provider's transportation cost will be reimbursed as follows:

i. New provider, as described in §2915.E.1, will be reimbursed in an amount equal to the statewide allowable quarter hour median transportation costs.

(a). In order to calculate the statewide allowable quarter hour median transportation costs, all acceptable full year cost reports, except those for which an audit disclaimer has been issued, shall be arrayed from lowest to highest. The cost at the midpoint of the array shall be the median cost. Should there be an even number of arrayed cost, an average of the two midpoint centers shall be the median cost. This will be the rate component. Inflation will not be added to transportation costs.

ii. Providers that have gone through a change of ownership (CHOW), as described in §2915.E.2, will be reimbursed for transportation costs based upon the previous owner's specific allowable quarter hour transportation costs for the period of time between the effective date of the CHOW and the first succeeding base year in which the new owner could possibly file an allowable 12-month cost report. Thereafter, the

new owner's data will be used to determine the provider's rate following the procedures specified in this Rule.

iii. Providers that have been issued an audit disclaimer, or have a non-filer status, as described in §2915.E.3, will be reimbursed for transportation costs at a rate equal to the lowest allowable quarter hour transportation cost (excluding providers with no transportation costs) in the state as of the most recent audited and/or desk reviewed rate database.

iv. For rate periods between rebasing years, if a provider discontinues transportation services and reported no transportation costs on the most recently audited or desk reviewed cost report, no facility specific transportation rate will be added to the facility's total rate for the rate year.

7. Budgetary Constraint Rate Adjustment. Effective for the rate period July 1, 2011 to July 1, 2012, the allowable quarter hour rate components for direct care, care related, administrative and operating, property, and transportation shall be reduced by 10.8563 percent.

a. - e. Repealed.

8. Interim Adjustments to Rates. If an unanticipated change in conditions occurs that affects the cost of at least 50 percent of the enrolled ADHC providers by an average of five percent or more, the rate may be changed. The

Department will determine whether or not the rates should be changed when requested to do so by 25 percent or more of the enrolled providers, or an organization representing at least 25 percent of the enrolled providers. The burden of proof as to the extent and cost effect of the unanticipated change will rest with the entities requesting the change. The Department may initiate a rate change without a request to do so. Changes to the rates may be temporary adjustments or base rate adjustments as described below.

a. Temporary Adjustments. Temporary adjustments do not affect the base rate used to calculate new rates.

i. Changes Reflected in the Economic Indices. Temporary adjustments may be made when changes which will eventually be reflected in the economic indices, such as a change in the minimum wage, a change in FICA or a utility rate change, occur after the end of the period covered by the indices, i.e., after the December preceding the rate calculation. Temporary adjustments are effective only until the next annual base rate calculation.

ii. Lump Sum Adjustments. Lump sum adjustments may be made when the event causing the adjustment requires a substantial financial outlay, such as a change in certification standards mandating additional equipment or furnishings. Such adjustments shall be subject to the Bureau's

review and approval of costs prior to reimbursement.

b. Base Rate Adjustment. A base rate adjustment will result in a new base rate component value that will be used to calculate the new rate for the next fiscal year. A base rate adjustment may be made when the event causing the adjustment is not one that would be reflected in the indices.

9. Provider Specific Adjustment. When services required by these provisions are not made available to the recipient by the provider, the Department may adjust the prospective payment rate of that specific provider by an amount that is proportional to the cost of providing the service. This adjustment to the rate will be retroactive to the date that is determined by the Department that the provider last provided the service and shall remain in effect until the Department validates, and accepts in writing, an affidavit that the provider is then providing the service and will continue to provide that service

9.a. - 10. Repealed.

C. Cost Settlement. The direct care cost component shall be subject to cost settlement. The direct care floor shall be equal to 70 percent of the median direct care rate component trended forward for direct care services (plus 70 percent of any direct care incentive added to the rate). The Medicaid Program will recover the difference between the direct care floor and

the actual direct care amount expended. If a provider receives an audit disclaimer, the cost settlement for that year will be based on the difference between the direct care floor and the lowest direct care per diem of all facilities in the most recent audited and/or desk reviewed database. If the lowest direct care per diem of all facilities in the most recent audited and/or desk reviewed database is lower than 50 percent of the direct care rate paid for that year, 50 percent of the direct care rate paid will be used as the provider's direct care per diem for settlement purposes.

D. ...

E. New Facilities, Changes of Ownership of Existing Facilities, and Existing Facilities with Disclaimer or Non-Filer Status

1. New Facilities are those entities whose beds have not previously been certified to participate, or otherwise have participated, in the Medicaid program. New facilities will be reimbursed in accordance with this Rule and receiving the direct care, care related, administrative and operating, property rate components as determined in §2915.B.1 - §2915.B.6. These new facilities will also receive the state-wide average transportation rate component, as calculated in §2915.B.6.e.i.(a), effective the preceding July 1.

2. A change of ownership exists if the beds of the new owner have previously been certified to participate, or

otherwise have participated, in the Medicaid program under the previous owner's provider agreement. Rates paid to facilities that have undergone a change in ownership will be based upon the rate paid to the previous owner for all rate components.

Thereafter, the new owner's data will be used to determine the facility's rate following the procedures in this rule.

3. Existing providers that have been issued an audit disclaimer, or are a provider who has failed to file a complete cost report in accordance with §2903, will be reimbursed based upon the statewide allowable quarter hour median costs for the direct care, care related, administrative and operating, and property rate components as determined in §2915.B.1 - §2915.B.7. No inflation or median adjustment factor will be included in these components. The transportation component will be reimbursed as described in §2915.B.6.e.iii.

F. Effective for dates of service on or after July 1, 2012, the reimbursement rates for ADHC services shall be reduced by 1.5 percent of the rates in effect on June 30, 2012.

1. The provider-specific transportation component shall be excluded from this rate reduction.

F.2. - G.1 Repealed.

**Medicaid Eligibility

Medically Needy Program
(LAC 50:III.2314)**

The Department of Health and Hospitals, Bureau of Health Services Financing proposes to adopt LAC 50:III.2314 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq.

The Department of Health and Hospitals, Office of the Secretary, Bureau of Health Services Financing promulgated a Rule in order to reinstate the Title XIX Medically Needy Program (MNP) and to establish coverage restrictions (*Louisiana Register*, Volume 24, Number 5). All Behavioral health services are restricted from coverage under the Medically Needy Program.

In February 2012, the department adopted provisions in the Medicaid Program to restructure the existing behavioral health services delivery system into a comprehensive service delivery model called the Louisiana Behavioral Health Partnership (LBHP). Certain recipients enrolled in the Medically Needy Program, whose Medicaid eligibility is based solely on the provisions of §1915(i) of Title XIX of the Social Security Act, are eligible

to only receive behavioral health services. The department now proposes to amend the provisions governing the Medically Needy Program in order to establish provisions in the *Louisiana Administrative Code* for the coverage of recipients who qualify for behavioral health services under §1915(i) of the Social Security Act.

1. Effective for dates of service on or after March 1, 2015, recipients who receive Spend-Down MNP shall not be eligible for 1915(i) behavioral health services.

B. LBHP 1915(i) MNP recipients are only eligible to receive behavioral health services through the LBHP. They do not qualify for other Medicaid covered services.
