

ANNUAL DENTAL VISITS

The measure includes the number of people ages 2 to 3 years, 4 to 6 years, 7 to 10 years, 11 to 14 years, 15 to 18 years, or 19 to 21 years (Figure 1), and the combined total (Figure 2), who were continuously enrolled in Louisiana Medicaid during the measurement year. The rates (percentages) show how many of these people had at least one dental visit during the measurement year.*
