

Homeowners Maintenance Program for Aerobic Wastewater Treatment Systems

UL Lafayette's Louisiana Environmental Training Center (LETC) will present two (2) workshops in 2013 which will present guidelines for homeowner maintenance of an Aerobic Treatment System. The workshop is specifically designed to clarify waste-water regulations, cover present topics of interest, and practical applications for homeowners who will be maintaining their own unit.

In accordance with Louisiana Revised Statutes 40:1156 A & B, Act 8 of 2003/House Bill 120, a homeowner is only allowed to install and/or maintain his/her individual mechanical treatment plant (MTP) located at and servicing their primary residence. To obtain homeowner certification information contact your On site Regional Coordinator, or the Parish Sanitarian.
