Low Birth Weight (% of births ,5#8oz/2500gm)	49 th	(10.8%)

Review of Meeting #1

REGION 7		
Ranking	PRIORITY	%
1	Healthcare and Insurance	23.52
2	Unemployment/Economic Development	22.88
3	Chronic Disease Management	20.53
4	Nutrition/Healthy Eating	18.1
5	Behavioral Health/Mental Health/Addictive Disorders	14.97

SWOT Emerging Themes

Priority 1: Healthcare & Insurance

Strengths

- Strong hospital presence as well as community & school health programs
- Good public transportation in urban areas
- Strong medical education opportunities (nursing)

Weaknesses

- Cost of care for providers & patients, especially for those with Medicaid
- Barriers to access for vulnerable populations – elderly, rural populations, Medicaid

Opportunities

- Greater coordination between hospital & community prevention & care programs
- Medical & nursing schools & students

Threats

- Lack of patient/community knowledge about available resources
- Language & cultural barriers to access
- Lack of insurance coverage & providers across the region, high demand for services

SWOT Emerging Themes

Priority 2: Unemployment & Economic Development

Strengths

- Community awareness of unemployment & economic development as important issues
- Availability of job preparedness resources from universities, community colleges, etc.

Weaknesses

- Lack of career training for available jobs in the region

Opportunities

- Coordinated programming within business & education communities as well as SSA to better connect and prepare individuals for employment opportunities.

Threats

- Disparities in economic opportunities between urban and rural areas
- Lack of job opportunities & funding for sustainable economic development in region.

SWOT Emerging Themes

Priority 3: Chronic Disease Prevention & Management

Strengths

- Strong community-based programs to promote healthy & affordable nutrition
- Strong nursing & medical medication programs
- Growth of efforts to change built environment to support healthy lifestyles (new parks, new grocery stores)

Weaknesses

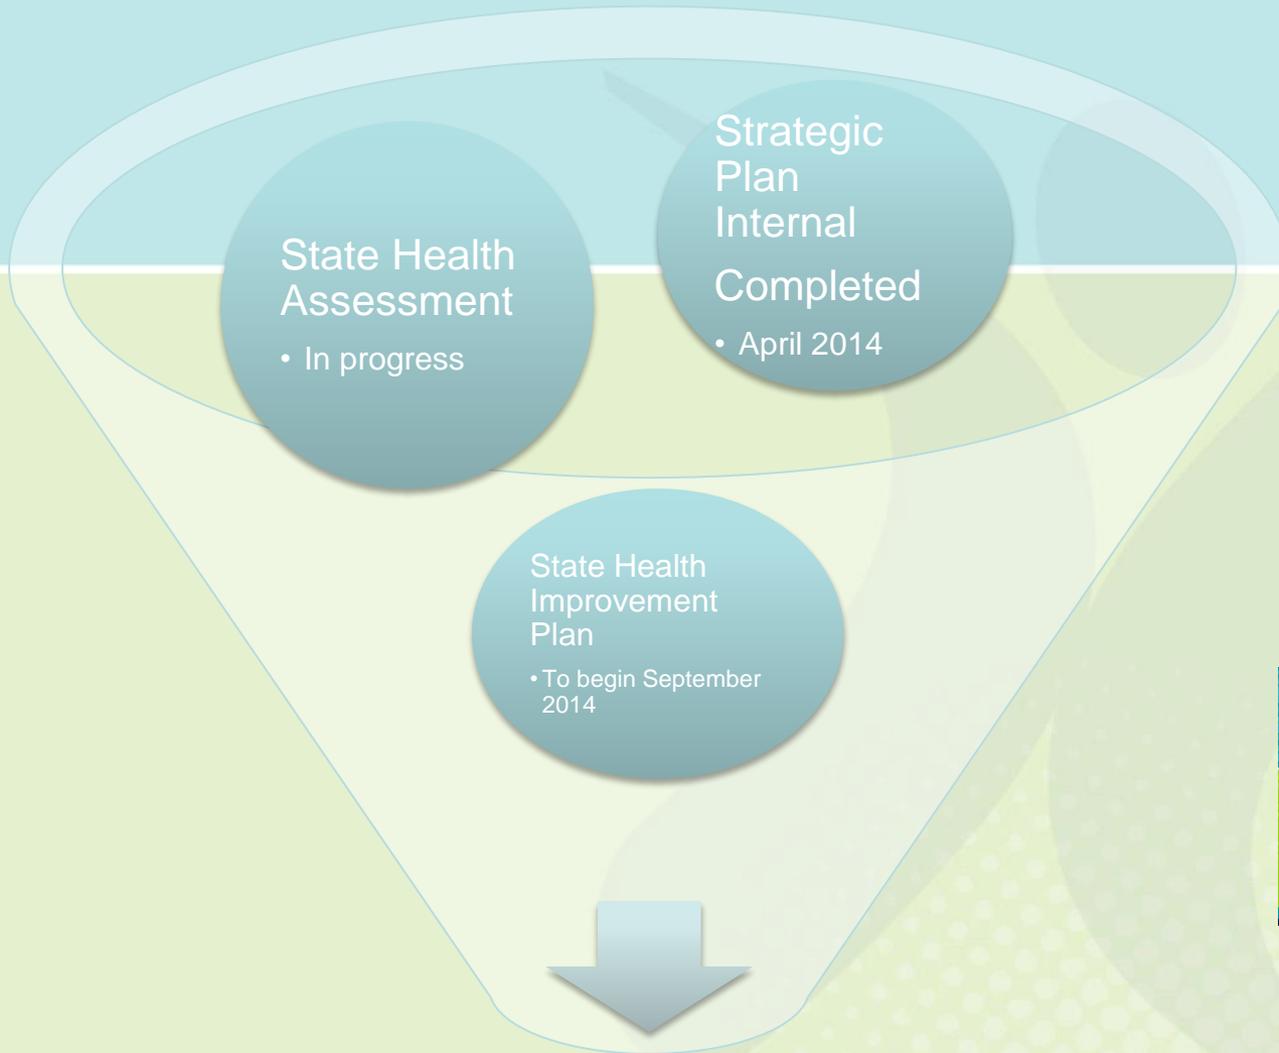

- Lack of preventative services & education
- Over-use of emergency departments (and under-use of primary care). Barriers to access to care include transportation, insurance, wait times

Opportunities

- Work with political leaders to improve built environment and acknowledge connectivity of built environment to chronic health issues
- Increase health education on all levels, especially with youth (school-based health centers)

Threats

- Lack of funding for preventive programs, services and medical care due to budget cuts
- Built environment & culture impede access to physical activity & healthy eating

Healthy Louisiana

...Creating your Blueprint for the Future

Strategic Plan (internal to OPH)

- Goals, Objectives, Action steps
- 5 Priorities
 - Health Information Technology
 - Increase Financial Stability
 - Improve Internal/External Collaboration
 - Improve Workforce Development
 - Reduce Health Disparities

State Health Assessments

- Meeting 1 (March 2015- June 2015)
- Meeting 2 (July 2015- August 2015)
- Uses quantitative and qualitative methods to collect and analyze data to understand health in the regions/state, prioritize health issues

State Health Improvement Plan

- Describes how public health stakeholders and system partners will work together to improve the health of the state
- Develop, Implement, Evaluate & Monitor
